Product Description

Concealed Yoga Mat Carrying Strap

This gym bag ingeniously features a concealed yoga mat carrying strap at the bottom, making it convenient to hang your yoga mat, beach mat, and more. The unique storage design allows these carrying straps to be discreetly stowed away when you don't need to transport the yoga mat, preserving the aesthetics and everyday usability.

Wet Pocket & Shoe Compartment Design

This workout bag features a wet pocket designed to accommodate damp clothes, wet towels, swimsuits, toiletries, and more, effectively separating dry and wet items. Additionally, there is a zippered shoe compartment at the back, making it easy to store various types of footwear, such as slippers and athletic shoes, fulfilling your diverse exercise and travel needs.

Unique Shoulder Strap Design

Unlike regular yoga bag, this bag boasts an upgraded padded shoulder strap design, providing the most comfortable experience whether carried by hand or slung over the shoulder. Additionally, it features a detachable clasp for added convenience while accessing your belongings. The adjustable design allows for easy transition between shoulder carrying and handheld use.

30L Large Capacity

The main compartment measures 17.5*18*6.3 inches, offering a spacious 30-liter capacity, enough to accommodate all your travel essentials and fitness gear. The front of the bag features a zippered pocket, providing convenient storage for items like glasses, phones, wallets, or other belongings you need quick access to. There's also a side pocket with a drawstring closure, designed for holding items such as water bottles, umbrellas, and more.
